

The Makery Mentor (Volunteer)

The Makery at Hannaford Career Center is seeking enthusiastic and talented mentors to share your expertise on Thursday nights with local makers, crafters, learners, and budding entrepreneurs. We need mentors in the following maker labs:

- Woodworking
- Sewing
- CNC Wood Router
- Glowforge Laser Cutter

This is a volunteer position but allows a Mentor free access to all Makery labs. You will also have the satisfaction of helping makers learn new skills or brush up where they're out of practice. You'll offer coaching to help projects go from concept to completion. Makery Mentor job requirements:

- Share your knowledge and expertise
- Display positivity and enthusiasm
- Provide honest and constructive feedback
- Exhibit active listening skills
- View the mentoring relationship as an opportunity for you to learn

The Makery is a member-based Makerspace collaborative for people to imagine, experiment, network, collaborate and create for personal and professional growth. We operate within the Adult Education Department of Hannaford Career Center, utilizing its building and equipment to encourage technical and creative entrepreneurship in Addison County.
